INTERESTS

Gaming is something I have always had an avid interest in, and I know I'll never stop keeping myself updated on industry news and the newest, trending games. I'm also part of the University of Portsmouth Gaming Society and attend the socials every week.

I'm currently developing a game for the web using Inkle Studios' Ink scripting language and Vue.js as a personal development project in my spare time.

I also thoroughly enjoy Pilates, and attend classes on a weekly basis.
